

Tourism WA – Perth City at Night

Emerging Researchers in Ageing in partnership with Curtin University present

16th National Conference of Emerging Researchers in Ageing

Digging for gold: Building success in ageing research

6 – 7 November 2017

Technology Park Function Centre, Bentley, Western Australia

Curtin University is pleased to host the 16th National Emerging Researchers in Ageing Conference in 2017. This is the only national conference in Australia focusing exclusively on the work of higher degree research students undertaking research in ageing across a range of disciplines. The conference presents a unique opportunity for higher degree research students to come together to share their research.

Call for Abstracts

We warmly invite the submission of abstracts for oral and poster presentations from PhD, Masters and Professional Doctoral students, and early career researchers engaged in ageing related research from any discipline.

The call for abstracts is **now open** and will close on **30 June 2017**. A copy of the submission guidelines and abstract template are available at www.era.edu.au/ERA+2017

Registration and Enquiries

Conference registration will open mid-May.

For more information please refer to the conference website:

www.era.edu.au/ERA+2017

Enquiries: era2017conference@era.edu.au

Keynote speakers

Dr Susan Slatyer

Dr Slatyer is a Research Fellow with the School of Nursing, Midwifery and Paramedicine, Curtin University, and with the Centre for Nursing Research, Sir Charles Gairdner Hospital. Her research focuses on the care of older people and their family carers across hospital and community settings.

Dr Nicholas Waldron

Dr Waldron is a consultant geriatrician and clinical researcher, and leads the WA Falls Prevention Health Network. By combining these roles and breaking down barriers to innovation uptake, he hopes that patient care can be improved and sustained.

Post-conference workshops

Using the media to market yourself

Learn from researchers and communication specialists about how to disseminate your research using different forms of media.

'Playing the game'

Learn from a diverse group of early career researchers about how to build a successful post-doctoral research career.
